## PLANT ENZYME FORMULA

Enriching Gifts International's core product is its exclusive plant enzymes containing a rare and unique ionic mineral blend, trade-marked GR8-CF77™ formula. This formula contains 9 plant based enzymes that help digest proteins, fats, carbohydrates, starches, sugars and all foods. As our core product, plant enzymes are what enable all of our other products to be so effective.

It is important to understand that the best way to achieve optimal health is by having high enzyme levels in the body and conserving the body's enzyme production which diminishes with age. When the body has an abundance of enzymes, it can protect itself and repair the damage from virtually all degenerative diseases.

Enzymes are a key piece of the puzzle of life, because they make all the other pieces work. Enzymes are the very life force that activates vitamins, minerals, proteins and other physical components within the body; furthermore, these components can't do their work without enzymes!

Most health products focus on giving the body the materials it needs. We need water, vitamins and ionic minerals. **We also need to give the cells and organs of the body back its power and ability to function more effectively.**

Our plant enzymes take the drain off the workforce and give them the chance to regain their strength and focus. Taking the enriching gifts enzymes will help the body develop a stronger disease-fighting capability and increase the body's ability to mend and heal itself. As a matter of fact, digestive enzymes can do as much or more for the human body than any other health product available!
